

GoldSMS Config

The screenshot shows the GoldSMS Configuration window with the 'Include' tab selected. The interface includes several checkboxes and text input fields:

- ☒ Log outbound text to history tab
- ☐ Include payload: [Time]
- ☐ Include signature: []
- ☒ Include "Additional" PPSMS numbers as options
- ☒ Include "Additional" MSISDN/PIN numbers as options

Below these are two text boxes:

- Cell Extension: [04Mobile Spain/Spain+34] (English, Italian, French)
- A note: To auto-rotate cell IDs in column: phoneid, pincode, and the others whose names are found in exit through exit.

CellPhone Field(s)	FIELD	(Subst)	
[SPINCODE], [CIB]			Field(s) entered here will be listed as "send to" options.

Below the table is another section:

- ☐ Include Page: [Page Name = 040955-1234
Mayo(2011-1-218)]
- Page description: [Page]
- Paid Page Phone ID: [040955-9524]

At the bottom, there is an ID Code field containing a long alphanumeric string and two buttons: Save and Cancel.

The options here are fairly well understood. Of critical importance are the two fields whose labels are in red, namely the
